

Certificate of Climate Action

Carbon emissions offset

100

tonnes CO₂e

This certificate is in recognition that

Crucial Cloud Hosting

has offset 100 tonnes of greenhouse gas emissions for the period FY13/14.

Climate Friendly commits to retiring the equivalent in VCS carbon credits from the Tasmanian Native Forest Protection Project in Australia to offset emissions associated with head office and data centre electricity use for 2013/2014 Financial Year.

Thank you for taking meaningful action on climate change.

Joel Fleming
Founding Chairman
